Index to Vol. XX, 1898.

ACIDITY in soils, relative sensibility of plants to..... 103
Acids, the solubility of weak acids in stronger, 742; solubility of, in solutions of the salts of other acids..... 751
Air-bath, a modified..... 271
Alcohol, the determination of small quantities of..... 293
Alkaloidal periodides..... 706
Alkaloids, volumetric estimation as higher periodides..... 706
Alloys, determination of lead in..... 508
ALSOP, WM. K., and J. H. Yocum. Composition of the Ashes of Some Raw Tanning Materials..... 338
Aluminum, atomic weight of..... 164
Aluminum as an electrode..... 302
Alums, formation by electrolysis..... 759
Amid in the sugar-cane, additional notes on..... 133
Ammonia from water, a collector for the distillation of..... 286
Ammonium bromoselenate, preparation of..... 566
Ammonium citrate solution, preparation of a neutral..... 585
Analytical work, dignity of (presidential address)..... 81
Antimony from lead, separation by means of hydrobromic acid gas, 801; from copper..... 804
Applied chemistry, the second international congress of, 137, 234; third international congress of, 550; the year's progress in (Review)..... 967
Ashes of raw tanning materials, composition of..... 338
Asphalt, determination of sulphur in..... 882
Argon, density of, 170; in gas given off by heating metallic oxides in hydrogen..... 233
Arsenic, separation from copper by hydrobromic acid gas, 805; from silver, 806; from cadmium, 807; from cobalt, 808; from iron..... 809
ATKINSON, ELIZABETH ALLEN. I. Metal Separations by Means of Hydrobromic Acid Gas. II. Indium in Tungsten Minerals..... 797
Atomic weights, report of committee on, 163; spectra of the alkalies and their..... 171
Atomic volume as a periodic function..... 935
Atropine periodides and iodomercurates..... 329
AUCHY, GEORGE. The Moist Combustion Method of Determining Carbon in Steel, 243; the Error in Carbon Determinations Made with the Use of Weighed Potash Bulbs, 528; Note on Drown's Method of Determining Silicon in Steel..... 547

BACTERIA counter, a new..... 507
Barium potassium ferrocyanide, 29; potassium ruthenocyanide, 30; cesium ruthenocyanide, 31; cesium ferrocyanide, 33; trinitride..... 229
BARTON, G. E. Volumetric Apparatus..... 731
BASKERVILLE, CHARLES, and F. W. Miller. On the Decomposition of Concentrated Sulphuric Acid by Mercury at Ordinary Temperatures, 515; See also Venable, F. P.
Bauxite, commercial analysis of..... 209
BAYLEY, THOMAS. The Cyclical Law of the Elements, 927; Atomic Volume as a Periodic Function..... 935
BEESON, J. L. Nitric Nitrogen Produced by the Pea..... 793
BELDEN, A. W. See Venable, F. P.
BENEDICT, C. H. See Dennis, L. M.
BENEDICT, FRANCIS G., and R. S. Norris. The Determination of Small Quantities of Alcohol..... 293
BENTLEY, W. B. See Menke, A. E.
Benzenesulphonate, note on preparation of sodium..... 549
BIGELOW, W. D. See Wiley, H. W.

Bismuth iodides with alkyls and with vegetable bases, 96; separation from copper by hydrobromic acid gas 803
BOGERT, MARSTON TAYLOR. Obituary Notice of Charles Edward Colby 139
BOOK REVIEWS. Elements of Electrochemistry (R. Lüpke), 142; Manual of Qualitative Chemical Analysis (C. R. Fresenius), 142; The Pharmacist at Work (W. C. Alpers), 144; A Dictionary of Chemical Solubilities, Inorganic (A. M. Comey), 145; The Principles of Chemistry (D. Mendeléeff), 148; Incompatibilities in Prescriptions (E. A. Ruddiman), 151; The Early History of Chlorine (Scheele, Berthollet, Guyton de Morveau, Gay-Lussac and Thénard—Alembic Club Reprint), 152; An Outline of the Theory of Solution and Its Results (J. Livingston R. Morgan), 153; The Principles of Mathematical Chemistry—The Energetics of Chemical Phenomena (Georg Helm), 154; Electric Smelting and Refining (W. Borchers), 156; The Book of the Dairy (W. Fleischmann), 157; Water and Public Health (James H. Fuertes), 158; Elements of Chemistry (R. P. Williams), 159; Humphry Davy, Poet and Philosopher (T. E. Thorpe), 160; A Handbook of Modern Explosives (M. Eissler), 161; Researches on the Molecular Asymmetry of Natural Organic Products (Louis Pasteur—Alembic Club Reprint), 235; A Handbook for Chemists of Beet-sugar Houses and Seed-culture Farms (G. L. Spencer), 236; A Practical Treatise on Mineral Oils and their By-Products, Including a Short History of the Scotch Shale Oil Industry, etc. (Iltyd I. Redwood), 236; A Short Handbook of Oil Analysis (A. H. Gill), 237; An Introductory Course in Quantitative Analysis (Percy W. Evans), 238; Exercises in Practical Physiology: Part III.—Physiology of the Nervous System, Electro-Physiology (A. D. Waller), 238; The Chlorination Process (E. B. Wilson), 239; Organic Chemistry for the Laboratory (W. A. Noyes), 240; Introduction to Electrochemical Experiments (Felix Oettel), 317; The Freezing-point, Boiling-point and Conductivity Methods (Harry C. Jones), 317; Practical Exercises in Electrochemistry (Felix Oettel), 318; Laboratory Experiments on the Class Reactions and Identification of Organic Substances (Noyes and Mulliken), 319; Das optische Drehungsvermögen organischer Substanzen und dessen praktische Anwendung (Landolt), 381; Spectrum Analysis (J. Landauer), 383; On Laboratory Arts (R. Threlfall), 384; The Arrangement of Atoms in Space (J. H. Van't Hoff), 386; Bibliography of the Platinum Group (Jas. Lewis Howe), 387; The Calorific Power of Fuels (Herman Poole), 388; Methods for the Analysis of Ores, Pig Iron and Steel, 389; Textbook of Physical Chemistry (Clarence L. Speyers), 389; Animal Fats and Oils (L. E. Andés), 550; Quantitative Chemical Analysis by Electrolysis (A. Classen), 551; A Manual of Quantitative Chemical Analysis (E. F. Ladd), 552; A Laboratory Guide in Qualitative Chemical Analysis (H. L. Wells), 728; Explosive Materials (J. P. Wisser), 813; A Brief Course in Qualitative Analysis (E. A. Congdon), 889; Alkaloidal Estimation (Paul I. Murrill), 890; Traité d'Analyse des Substances Minérales (A. Carnot), 891; A Text-book of Elementary Analytical Chemistry, Qualitative and Volumetric (J. H. Long), 893; Lighting by Acetylene (W. E. Gibbs), 895; A Short Course in Inorganic Qualitative Analysis for Engineering Students (J. S. C. Wells), 896; Soaps (George H. Hurst) 989
Books Received 79, 162, 241, 320, 392, 467, 553, 638, 730, 814, 897, 990
Boric acid determination 288
BREGOWSKY, I. M. See Ford, Allen P.
Bromine, preparation of pure 565
BRUSH, CHARLES F. A New Gas 899
Butter, glucose in 201
Butter color, delicate test for, 110; testing for azo dye used as a 889

CADMIUM, electrolytic determination of, 279; separation from arsenic by hydrobromic acid gas 807
Caffeic acid 42
Caffeotannic acid 42
Calcium trinitride 228
Calorimeter, description of a new respiration 681
CAMPBELL, E. D. Thermochemistry of Iron and Steel 78

CAMPBELL, E. D., and E. C. Champion. Electrolytic Determination of Tin in Tin Ores 687
CAMPBELL, E. D., and Wm. E. Hartman. On the Influence of Silicon on the Heat of Solution of Coke Cast Iron 690
CAMPBELL, GEORGE F. See Osborne, Thomas B.
CAMPBELL, H. D. See Howe, Jas. Lewis.
Carbohydrates, heat of combustion of 305
Carbon, atomic weight of, 163; in steel, moist combustion method for determining, 243; by combustion, inaccuracies in determination of, 510; determinations made with the use of weighed potash bulbs, the error in, 528; in boiler plate, segregation of 614
Carbon dioxide, density of, 170; monoxide, determination by explosion in technical gas analysis 343
Cascara sagrada, the chemistry of 534
Casein in feces, determination of, 101; in infant feces, determination of fat and 765
Cast-iron, influence of silicon upon the heat of solution of coke 690
Cereals, calories of combustion in oxygen of 304
Cesium trinitride, 227; bromoselenate 571
CHAMPION, E. C. See Campbell, E. D.
CHAPIN, EDWARD S. See Noyes, A. A.
Chromium, colorimetric estimation 454
Chromium salts, the nature of the change from violet to green in solutions of 484
Chlorhydrins, the action of metallic thiocyanates upon aliphatic 668
Chlorine, the Le Sueur process for the production of 868
Chromium, colorimetric estimation of small amounts of 454
Citrate solution, preparation of a neutral 585
Citric acid, surface-tension of aqueous solutions of 128
CLARKE, F. W. Report of Committee on Atomic Weights for 1897, 163; the Alkaline Reaction of Some Natural Silicates 739
Coagulation in colloid solutions, speed of 375
Coal analysis, preliminary report of the committee on 281
Cobalt, atomic weight of, 166; volumetric determination of, 173; separation from arsenic by hydrobromic acid gas 808
Colloid solution, speed of coagulation in 375
Condenser for extraction work 965
Congress of applied chemistry, the second international, 137, 234; third international 550
COOK, A. D. Method for Preparing a Strictly Neutral Ammonium Citrate Solution .. 585
Copper, separation from antimony by hydrobromic acid gas, 804; from arsenic 805
Corn, the oil of 948
Correspondence 137, 234
Counter, bacteria 507
Cover for flasks to prevent loss by spattering 233
CRAMPTON, C. A. Glucose in Butter 201
Cream, the proteids of 858

VENABLE, F. P. A Revision of the Atomic Weight of Zirconium, 119; A Modified Air-bath..... 271
VENABLE, F. P., and Charles Baskerville. The Oxyhalides of Zirconium..... 321
VENABLE, F. P., and A. W. Belden. Some Properties of Zirconium Dioxide, 273; Note on Liquid Phosphorus..... 303
VENABLE, F. P., and F. W. Miller. The Nature of the Change from Violet to Green in Solutions of Chromium Salts..... 484
Vetch, proteids of the..... 406, 410
Vinegar analysis and some characteristics of pure cider vinegar..... 3
Volumetric apparatus, graduation of, 731; facilities afforded by foreign governments and our own for standardizing..... 912

WALKER, PERCY H. Some Further Applications of Hydrogen Peroxide in Quantitative Analysis..... 513
WALLACE, DANIEL L. See Smith, Edgar F.
Want column in the journal, report of committee on..... 234
Water analysis, collector for the ammonia distillate in, 286; differentiation of organic matter in..... 497
WEBER, H. A. Root Tubercles in Water Culture..... 9
Weighing, electrical disturbance in..... 428
WHEELER, H. J. See Winton, A. L.
Copper, a new volumetric method for the determination of..... 610
WILEY, H. W. See Krug, W. H.
WILEY, H. W., and W. D. Bigelow. Calories of Combustion in Oxygen of Cereals and Cereal Products, Calculated from Analytical Data..... 304
WILEY, H. W., and W. H. Krug. Comparison of the Standard Methods for the Estimation of Starch..... 253
Wines, composition of Ohio..... 878
WINTON, A. L., and H. J. Wheeler. On the Lindo-Gladding Method of Determining Potash..... 597
WOODMAN, A. G. A Method for the Differentiation of Organic Matter in Water Analysis..... 497
WRIGHT, H. E. See Stone, W. E.

YOCUM, J. H. See Alsop, Wm. K.

ZIRCONIUM, a revision of the atomic weight of, 119; dioxide, some properties of, 273; the oxyhalides of, 321; separation from uranium by hydrogen peroxide, 514; derivatives of the tetrachloride of, 815; of the tetrabromide of, 839; preparation of the nitrides of, 843; separation from iron..... 846

Contents of Vol. XX, 1898.

PROCEEDINGS.

JANUARY.

Council ..... (1)
Names Proposed for Membership ..... (1)
New Members Elected December 11, 1897 ..... (1)
Associates Elected December 11, 1897 ..... (2)
Changes of Address ..... (2)
Meetings of the Sections—
Washington Section ..... (2)
Rhode Island Section ..... (4)
New York Section ..... (5)
Cincinnati Section ..... (6)

FEBRUARY.

Sixteenth General Meeting of the American Chemical Society ..... (7)
Council ..... (16)
Names Proposed for Membership ..... (16)
Name Proposed for Associate Membership ..... (16)
New Members Elected December 30, 1897 ..... (16)
Associate Elected December 30, 1897 ..... (17)
Changes of Address ..... (17)
Meetings of the Sections—
Columbus Section ..... (17)
New York Section ..... (17)

MARCH.

Council ..... (19)
Names Proposed for Membership ..... (20)
Applicants for Associate Membership ..... (23)
New Members Elected February 4, 1898 ..... (23)
Associate Elected February 4, 1898 ..... (23)
New Members Elected February 24, 1898 ..... (23)
Associate Elected February 24, 1898 ..... (24)
Changes of Address ..... (24)
Addresses Wanted ..... (24)
Meetings of the Sections—
Cincinnati Section ..... (24)
Rhode Island Section ..... (25)

APRIL.

Council .... (27)
Names Proposed for Membership .... (27)
Name Proposed for Associate Membership .... (28)
New Members Elected March 24, 1898 .... (28)
Associates Elected March 24, 1898 .... (30)
Changes of Address .... (30)
Meetings of the Sections—
Washington Section .... (31)
New York Section .... (32)
Rhode Island Section .... (33)

MAY.

Report on National Pure Food and Drug Congress .... (35)
Council .... (43)
Names Proposed for Membership .... (43)
Names Proposed for Associate Membership .... (44)
New Members Elected April 19, 1898 .... (44)
Associate Elected April 19, 1898 .... (44)
Changes of Address .... (44)
Address Wanted .... (45)
Meetings of the Sections—
North Eastern Section .... (45)
Cincinnati Section .... (46)
Columbus Section .... (47)
Washington Section .... (48)

JUNE.

Constitution and By-laws of the American Chemical Society .... (51)
Council .... (60)
Names Proposed for Membership .... (60)
Names Proposed for Associate Membership .... (61)
New Members Elected April 25, 1898 .... (61)
Associates Elected April 25, 1898 .... (61)
New Members Elected May 17, 1898 .... (61)
Associates Elected May 17, 1898 .... (62)
Changes of Address .... (62)
Addresses Wanted .... (63)
Meetings of the Sections—
Cincinnati Section .... (63)
New York Section .... (63)
Washington Section .... (65)

JULY.

Council .... (69)
Names Proposed for Membership .... (69)
New Member Elected May 28, 1898 .... (69)
Associates Elected May 28, 1898 .... (69)
New Members Elected June 14, 1898 .... (70)

Associates Elected June 14, 1898 ..... (70)
Changes of Address ..... (70)
Meetings of the Sections—
Washington Section ..... (71)
North Carolina Section ..... (73)

AUGUST.

Council ..... (75)
Report of Committee on Exchanges:
A. List of Exchanges to be Dropped ..... (76)
B. Exchanges Concerning which Further Inquiries Should Be Made to Ascertain Their Willingness to Continue Exchange (76)
C. Exchanges to be Continued ..... (76)
D. Exchanges to be Added if Possible ..... (79)
Names Proposed for Membership ..... (80)
Names Proposed for Associate Membership ..... (80)
New Members Elected June 25, 1898 ..... (80)
Changes of Address ..... (80)
Meetings of the Sections—
Cincinnati Section ..... (81)
New York Section ..... (82)
Rhode Island Section ..... (83)

SEPTEMBER.

Council ..... (85)
Names Proposed for Membership ..... (85)
Changes of Address ..... (85)

OCTOBER.

Minutes of the Seventeenth General Meeting of the American Chemical Society, Held in Boston, Mass., August 22 and 23, 1898 .... (87)
Council ..... (91)
Meeting of the Board of Directors, Tuesday, August 23, 3.30 P. M. ... (96)
New Members Elected September 16, 1898 ..... (96)
New Members Elected September 19, 1898 ..... (96)
New Member Elected September 21, 1898 ..... (97)
Names Proposed for Membership ..... (97)
Names Proposed for Associate Membership ..... (97)
Changes of Address ..... (97)
Address Wanted ..... (98)

NOVEMBER.

Council ..... (99)
Names Proposed for Membership ..... (99)
Names Proposed for Associate Membership ..... (100)
Changes of Address ..... (100)
Meetings of the Sections—
Lehigh Valley Section ..... (101)
New York Section ..... (101)

DECEMBER.

Council ..... (103)
Names Proposed for Membership ..... (103)
Names Proposed for Associate Membership ..... (103)
New Members Elected October 29, 1898 ..... (104)
Associates Elected October 29, 1898 ..... (104)
New Members Elected November 21, 1898 ..... (104)
Associates Elected November 21, 1898 ..... (105)
Changes of Address ..... (105)
Addresses Wanted ..... (106)
Meetings of the Sections—
Washington Section ..... (106)
Cincinnati Section ..... (106)
New York Section ..... (108)

PAPERS.

JANUARY.

A New Form of Discharger for Spark Spectra of Solutions. By L. M. Dennis 1
Vinegar Analysis and Some Characteristics of Pure Cider Vinegar. By Albert W. Smith 3
Root Tubercles in Water Culture. By H. A. Weber 9
Derivatives of Silicon Tetrachloride. By Joseph F. X. Harold 13
Some New Ruthenocyanides and the Double Ferrocyanide of Barium and Potassium. By Jas. Lewis Howe and H. D. Campbell 29
The Caffein Compound in Kola. Part II. Kolatannin. By James W. T. Knox and Albert B. Prescott 34
Note: A Correction 78
Erratum 79
Books Received 79

FEBRUARY.

The Dignity of Analytical Work. By C. B. Dudley 81
Alkyl Bismuth Iodides and Bismuth Iodides of Vegetable Bases. By Albert B. Prescott 96
The Action of Sulphuric Acid on Mercury. By J. R. Pitman 100
On the Determination of Fat and Casein in Feces. By E. E. Smith .. 101
The Relative Sensibility of Plants to Acidity in Soils. By Walter Maxwell 103
Methods and Solvents for Estimating the Elements of Plant Food Probably Available in Soils. By Walter Maxwell 107
A Delicate Test for the Detection of a Yellow Azo Dye Used for the Artificial Coloring of Fats, etc. By Joseph F. Geisler 110
The Lecithins of Sugar-cane. By Edmund C. Shorey 113
A Revision of the Atomic Weight of Zirconium. By F. P. Venable .. 119
The Surface-tensions of Aqueous Solutions of Oxalic, Tartaric, and Citric Acids. By C. E. Linebarger 128
Sodium Peroxide in Quantitative Analysis. By C. Glaser 130
Additional Notes on the Sugar-cane Amid. By Edmund C. Shorey .. 133
Correspondence 137
Obituary 139
New Books: Elements of Electrochemistry; Manual of Qualitative Chemical Analysis; The Pharmacist at Work; A Dictionary of Chemical Solubilities, Inorganic; The Principles of Chemistry; Incompatibilities in Prescriptions; The Early History of Chlorine; An Outline of the Theory of Solution and its Results; The Principles of Mathematical Chemistry; Electric Smelting and Refining; The Book of the Dairy; Water and Public Health;

Elements of Chemistry; Humphry Davy, Poet and Philosopher; A Handbook of Modern Explosives 142
Books Received 162
Erratum 162

MARCH.

Fifth Annual Report of the Committee on Atomic Weights. Results Published during 1897. By F. W. Clarke 163
The Volumetric Determination of Cobalt. By Harry B. Harris 173
Recent Work in England on the Purification of Sewage. By Leonard P. Kinnicutt 185
Investigation of the Theory of Solubility Effect in the Case of Trinionic Salts. By Arthur A. Noyes and E. Harold Woodworth 194
Glucose in Butter. By C. A. Crampton 201
A Method for Determining the Resistance of Electrolytes. By Parker C. McIlhiney 206
The Commercial Analysis of Bauxite. By Wm. B. Phillips and David Hancock 209
Upon the Salts of Hydronitric Acid. By L. M. Dennis and C. H. Benedict, with Crystallographic Notes by A. C. Gill 225
Introductory Note on the Reduction of Metallic Oxides at High Temperatures. By Fanny R. M. Hitchcock 232
Note: Device to Prevent Loss from Spattering 233
Correspondence 234
New Books: Researches on the Molecular Asymmetry of Natural Organic Products; A Handbook for Chemists of Beet-sugar Houses and Seed-culture Farms; A Practical Treatise on Mineral Oils and Their By-products; A Short Handbook of Oil Analysis; An Introductory Course in Quantitative Analysis; Exercises in Practical Physiology; The Chlorination Process; Organic Chemistry for the Laboratory 235
Books Received 241

APRIL.

The Moist Combustion Method of Determining Carbon in Steel. By George Auchy 243
Comparison of the Standard Methods for the Estimation of Starch. By H. W. Wiley and W. H. Krug 253
The Solubility of the Pentosans in the Reagents Employed in the Estimation of Starch. By W. H. Krug and H. W. Wiley 266
A New Electrolytic Stand. By George J. Hough 268
A Modified Air-bath. By F. P. Venable 271
Some Properties of Zirconium Dioxide. By F. P. Venable and A. W. Belden 273
Ammonium Selenide. By Victor Lenher and Edgar F. Smith 277
Electrolytic Determinations. By Edgar F. Smith and Daniel L. Wallace 279

Preliminary Report of the Committee on Coal Analysis. By W. A. Noyes, C. B. Dudley, and W. F. Hillebrand 281
A Collector for Distillation of Ammonia from Water. By F. P. Dunnington 286
Boric Acid Determination. By Thomas S. Gladding 288
Action of Sulphur Monochloride upon Minerals. By Edgar F. Smith 289
The Determination of Small Quantities of Alcohol. By Francis G. Benedict and R. S. Norris 293
Aluminum Used as an Electrode. By George J. Hough 302
Note on Liquid Phosphorus. By F. P. Venable and A. W. Belden .. 303
Calories of Combustion in Oxygen of Cereals and Cereal Products, Calculated from Analytical Data. By H. W. Wiley and W. D. Bigelow 304
Preliminary Note on Some New Derivatives of Vanillin. By A. E. Menke and W. B. Bentley 316
New Books: Introduction to Electrochemical Experiments; The Freezing-point, Boiling-point, and Conductivity Methods; Practical Exercises in Electrochemistry; Laboratory Experiments on the Class Reactions and Identification of Organic Substances 317
Books Received 320

MAY.

The Oxyhalides of Zirconium. By F. P. Venable and Charles Baskerville 321
Atropine Periodides and Iodomercurates. By H. M. Gordin and A. B. Prescott 329
Composition of the Ashes of Some Raw Tanning Materials. By Wm. K. Alsop and J. H. Yocum 338
On the Determination of Potash without the Previous Removal of Iron, Calcium, etc. By C. C. Moore 340
The Determination of Methane, Carbon Monoxide, and Hydrogen by Explosion in Technical Gas Analysis. By W. A. Noyes and J. W. Shepherd 343
Proteids of the Pea. By Thomas B. Osborne and George F. Campbell 348
Proteids of the Lentil. By Thomas B. Osborne and George F. Campbell 362
On the Speed of Coagulation of Colloid Solutions. By C. E. Linebarger 375
New Books: Das optische Drehungsvermögen organischer Substanzen und dessen praktische Anwendung; Spectrum Analysis; On Laboratory Arts; The Arrangement of Atoms in Space; Bibliography of the Platinum Group, 1748–1896; The Calorific Power of Fuels; Methods for the Analysis of Ores, Pig Iron, and Steel; Text-book of Physical Chemistry 381
Books Received 392

JUNE.

Proteids of the Horse Bean. By Thomas B. Osborne and George F. Campbell 393
Proteids of the Vetch. By Thomas B. Osborne and George F. Campbell 406
The Proteids of the Pea, Lentil, Horse Bean, and Vetch. By Thomas B. Osborne and George F. Campbell 410
Proteids of the Soy Bean. By Thomas B. Osborne and George F. Campbell 419
Electrical Disturbance in Weighing. By H. K. Miller 428
Analytical Notes upon the Estimation of Phosphorus in Steel. By R. W. Mahon 429
The Colorimetric Estimation of Small Amounts of Chromium, with Special Reference to the Analysis of Rocks and Ores. By W. F. Hillebrand 454
Volumetric Estimation of Vanadium in Presence of Small Amounts of Chromium, with Special Reference to the Analysis of Rocks and Ores. By W. F. Hillebrand 461
Notes: The Liquefaction of Hydrogen and Helium; The International Congress of Applied Chemistry 466
Erratum 467
Books Received 467

JULY.

Evaporation and Plant-transpiration. By Walter Maxwell 469
The Nature of the Change from Violet to Green in Solutions of Chromium Salts. By F. P. Venable and F. W. Miller 484
A Method for the Differentiation of Organic Matter in Water. By A. G. Woodman 497
An Efficient Gas-pressure Regulator. By Paul Murrill 501
Use of Hydrofluoric Acid in the Determination of Manganese in Iron and Ores. By Allen P. Ford and I. M. Bregowsky 504
A New Bacteria Counter. By William P. Mason 507
The Determination of Lead in Alloys. By W. E. Garrigues 508
Inaccuracies in the Determination of Carbon and Hydrogen of Combustion. By Charles F. Mabery 510
Some Further Applications of Hydrogen Peroxide to Quantitative Analysis. By Percy H. Walker 513
On the Decomposition of Concentrated Sulphuric Acid by Mercury at Ordinary Temperatures. By Charles Baskerville and F. W. Miller 515
The Reliability of the Dissociation-values Determined by Electrical Conductivity Measurements. By Arthur A. Noyes 517
The Error in Carbon Determinations Made with the Use of Weighed Potash Bulbs. By George Auchy 528
The Chemistry of Cascara Sagrada. By Alfred R. L. Dohme and Hermann Engelhardt 534

Molecular Weights of Some Carbon Compounds; A Few Words More. By C. L. Speyers 546
Note on Drown's Method of Determining Silicon in Steel. By George Auchy 547
Note: Preparation of Sodium Benzenesulphonate 549
Notice 550
New Books: Animal Fats and Oils; Quantitative Chemical Analysis by Electrolysis; A Manual of Quantitative Chemical Analysis ... 550
Errata 553
Books Received 553

AUGUST.

The Atomic Mass and Derivatives of Selenium. By Victor Lenher .. 555
Osmotic Pressure. By C. L. Speyers 579
Method of Preparing a Strictly Neutral Ammonium Citrate Solution. By A. D. Cook 585
The Assay of Telluride Ores. By Charles H. Fulton 586
On the Lindo-Gladding Method of Determining Potash. By A. L. Winton and H. J. Wheeler 597
A New Volumetric Method for the Determination of Copper. By Richard K. Meade 610
On the Segregation of Carbon in a Piece of Boiler Plate. By Henry Fay and Henry P. Talbot 614
The Mineral Constituents of the Tubercle Bacilli. By E. A. de Schweinitz and Marion Dorset 618
The Specific Gravity of Sodium Chloride Solutions. By H. C. Hahn 621
A Short Study of Methods for the Estimation of Sulphur in Coal. By G. L. Heath 630
Books Received 638

SEPTEMBER.

Notes on Taka-diastase. By W. E. Stone and H. E. Wright 639
The Action of Organic Acids upon Nitrils. By John Alexander Mathews 648
The Action of Metallic Thiocyanates upon Aliphatic Chlorhydrins. By Wilbur Dwight Engle 668
Lubricants for Glass Stop-cocks. By Francis C. Phillips 678
Abstract of a Description of a Respiration Calorimeter Furnished by Professors Atwater and Rosa. By C. F. Langworthy 681
Electrolytic Determination of Tin in Tin Ores. By E. D. Campbell and E. C. Champion 687
On the Influence of Silicon upon the Heat of Solution of Coke Cast Irons. By E. D. Campbell and W. E. Hartman 690
On the Occurrence of Hydrogen Sulphide in the Natural Gas of Point Abino, Canada; and on a Method for the Determination of Sulphur in Gas Mixtures. By Francis C. Phillips 696

Certain Alkaloidal Periodides, and the Volumetric Estimation of Alkaloids as Higher Periodides. By A. B. Prescott and H. M. Gordin 706
New Books: A Laboratory Guide in Qualitative Chemical Analysis . 728
Errata 729
Books Received 730

OCTOBER.

Volumetric Apparatus. By G. E. Barton 731
The Alkaline Reaction of Some Natural Silicates. By F. W. Clarke. 739
The Solubility of Salts by Weak Acids in Stronger Acids. By Arthur A. Noyes and David Schwartz 742
The Solubility of Acids in Solutions of the Salts of Other Acids. By Arthur A. Noyes and Edward S. Chapin..... 751
The Color of Sulphur Vapor. By Jas. Lewis Howe and S. G. Hamner 757
The Formation of Alums by Electrolysis. By Jas. Lewis Howe and E. A. O'Neal 759
On the Determination of Undigested Fat and Casein in Infant Feces. By Herman Poole 765
Electric Furnaces for the 110-Volt Circuit. By Nevil Monroe Hopkins 769
On Tetraphenylmethane. By M. Gomberg..... 773
Hydrazo- and Azo-derivatives of Triphenylmethane. By M. Gomberg and A. Campbell 780
A Periodide of Triphenylbrommethane. By M. Gomberg..... 790
Nitric Nitrogen Produced by the Pea. By J. L. Beeson..... 793
Petroleum Inclusion in Quartz Crystals. By Chas. L. Reese 795
I. Metal Separations by Means of Hydrobromic Acid Gas. II. Indium in Tungsten Minerals. By Elizabeth Allen Atkinson..... 797
New Books: Explosive Materials..... 813
Books Received 814

NOVEMBER.

I. Derivatives of the Tetrachlorides of Zirconium, Thorium, and Lead. By J. Merritt Matthews..... 815
II. Derivatives of the Tetrabromides of Zirconium and Thorium. By J. Merritt Matthews..... 839
III. The Preparation of Zirconium Nitrides. By J. Merritt Matthews 843
IV. On the Separation of Iron from Zirconium and Certain Other Allied Metals. By J. Merritt Matthews 846
The Proteids of Cream. By E. F. Ladd 858
Humates and Soil Fertility. By E. F. Ladd..... 861
The Le Sueur Process for the Electrolytic Production of Sodium Hydroxide and Chlorine. By Charles Lathrop Parsons..... 868
Composition of Ohio Wines. By Albert W. Smith and Norman Parks 878
The Determination of Sulphur in Asphalt. By E. H. Hodgson..... 882
Note: Testing for a Yellow Azo-color in Fats, Etc..... 889

New Books: A Brief Course in Qualitative Analysis; Alkaloidal Estimation; Traité d'Analyse des Substances Minérales; A Textbook of Elementary Analytical Chemistry, Qualitative and Volumetric; Lighting by Acetylene; A Short Course in Inorganic Qualitative Analysis for Engineering Students 889
Books Received 897

DECEMBER.

A New Gas. By Charles F. Brush 899
On the Facilities for Standardizing Chemical Apparatus Afforded by Foreign Governments and Our Own. By Louis A. Fischer 912
The Cyclical Law of the Elements. By Thomas Bayley 927
Atomic Volume as a Periodic Function. By Thomas Bayley 935
The Oil of Corn. By C. G. Hopkins 948
Some Errors in the Determination of Nitrogen. By C. G. Hopkins. 961
A Condenser for Extraction Work. By C. G. Hopkins 965
Review: Some Records of the Year's Progress in Applied Chemistry 967
Note: Standard Pig Iron Samples 988
Notice 989
New Books: Soaps 989
Books Received 990
Index 991
